The background of the advertisement is a close-up, high-angle shot of a light-colored, wood-grain textured surface, likely a ceramic tile. In the upper left corner, a portion of a green and white patterned cushion is visible, featuring a stylized, fan-like design. The text is overlaid on the right side of the image.

APE

best for you

Our products are the result of our culture, mentality and corporate philosophy. They are primarily based on innovation, quality and our concern for a sustainable environment.

At Ape Ceramica we are committed to ecology because we know that we must take care of our planet if we want to be a company of the future. So much so that we have the technical, human and economic means at our disposal to prevent the environmental impact that can be generated by our activity and to grant the security of our staff and our social environment.

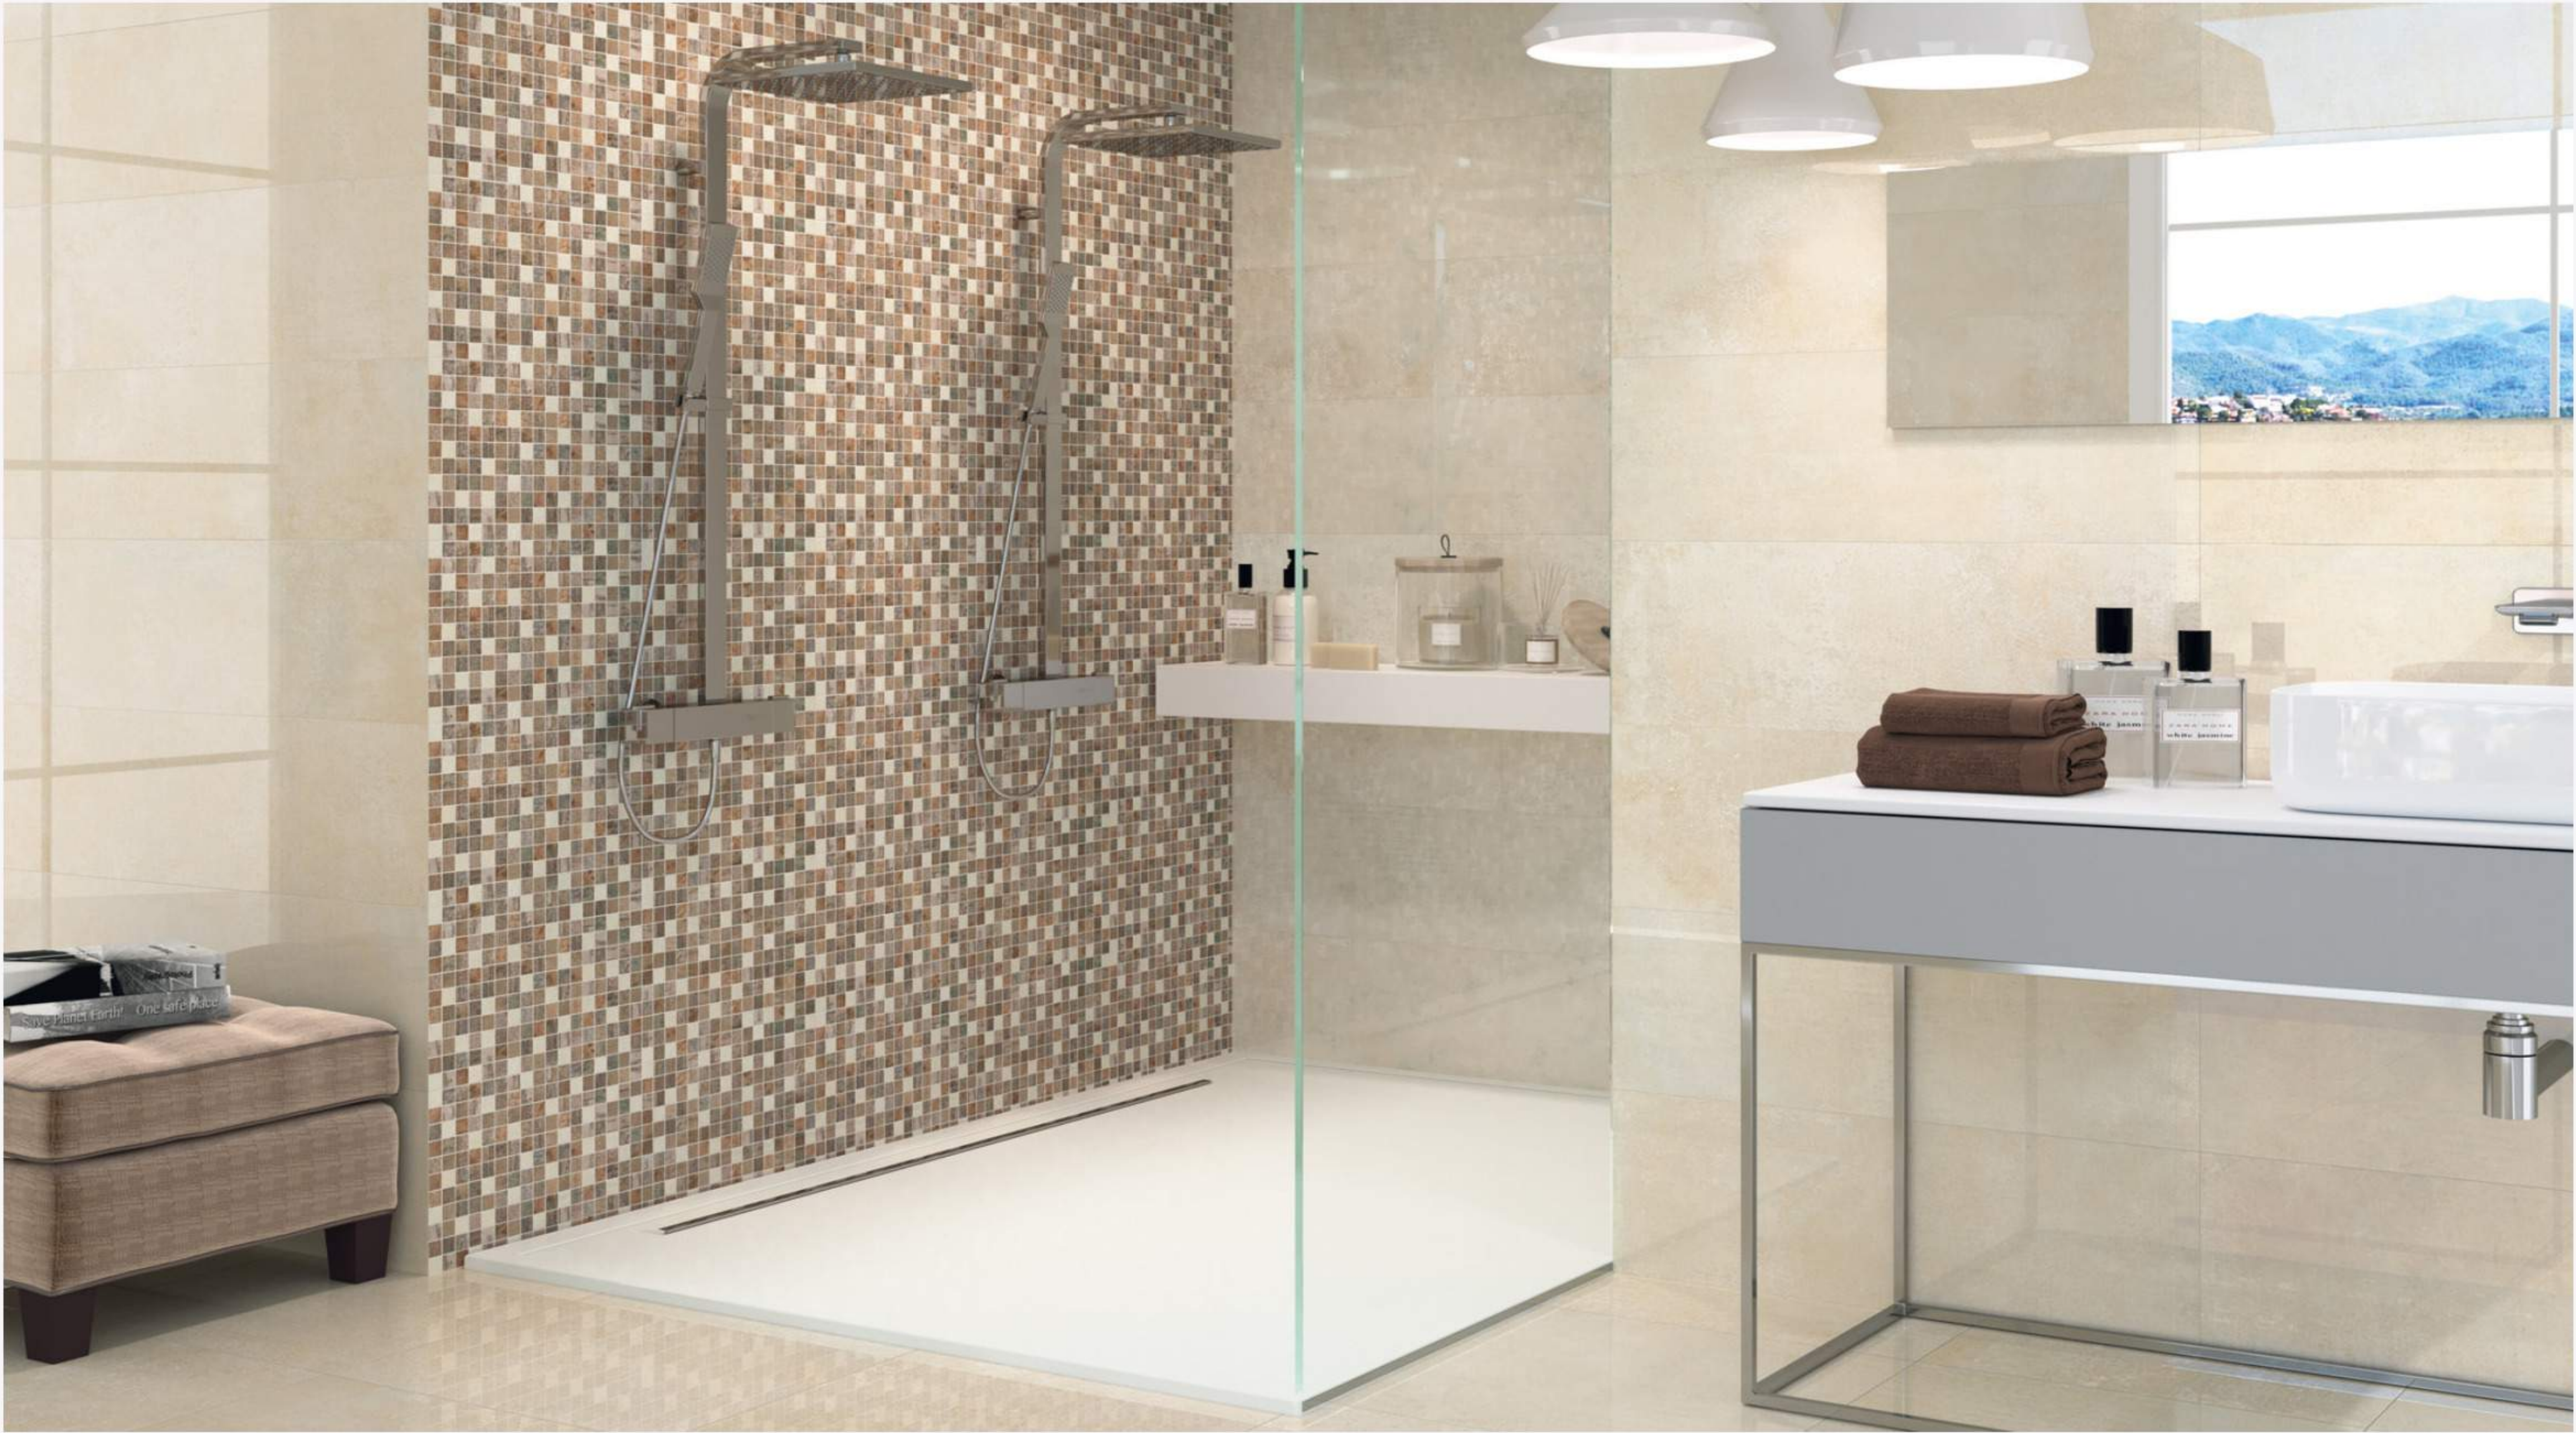

**“THE
SENSATION
BECOMES
BEAUTY”**

By bringing these naturally inspired linear patterns to ceramic tiles, the collection aspires to act as a catalyst, lending personality to interiors, whether they are minimalist or more sophisticated and elegant in style. Lines are essential ingredients in artistic creation of all kinds and how better to give free rein to the senses than to immerse yourself in them.

Bathtubs

After a long and hard day you are looking forward to a break, time for yourself and relaxation. Freestanding bathtubs incorporate modern design, ergonomic shapes and attention to detail.

WHIRLPOOL AND JACUZZI:
Now you can feel that it is your moment. After an intense day, there is nothing like enjoying the relaxation of a good bath and getting your mind calm.

If this is exactly what you are looking for, what your bathroom needs is a bathtub. Build a room with an elegant, authentic design and personality. What type of bathtub do you want? We tell you the advantages of acquiring an exempt bathtub.

Bagno di Colore

The language of colour has different accents; The choice of a colour expresses a need and conveys our feelings to the outside.

Charme

Respecting and protecting the environment is an important ethical value to which Ceramica Globo subscribes.

Using water and energy in a more rational way, recycling materials and manufacturing waste and designing water-saving articles allows us to have a positive environmental impact by helping to reduce CO2 emissions.

Ceramica Globo is the first sanitary-hygiene company in Italy to become a member of the Green Building Council Italia, aimed at introducing the independent LEED (Leadership in Energy and Environmental Design) certification system into the country.

GLOBO

Blossom

In full bloom, the Blossom decoration is inspired by traditional subjects and suggestions and interprets the evolution of the concept of ceramics in a modern way. The unique decoration of the pattern expresses the artistic strength of the distinctive designs that seem to continue without interruptions.

Flower

Flower depict a floral pattern that comes from the use of decals fired into the glaze creating a bas-relief design.

This delightful and vibrant decoration is inspired by nature and is suitable for environments with a distinctive shape and colour.

Bataform®

Antibacterial Treatment

CERASLIDE®

The careful control of temperatures in the various cooking stages, in a cycle that can last up to 26 hours, ensures perfect homogeneity of the product during the sintering process, reducing porosity and guaranteeing greater resistance against stains, dirt and abrasions.

This means the residuals do not adhere to the walls but slide off with the water.

BATAFORM®

The BATAFORM® antibacterial treatment was developed to ensure deeper hygiene. The antimicrobial power of this process during production significantly reduces the presence of germs and bacteria. Laboratory tests performed according to the international ISO 22196:2011 standards confirm a drastic decline in the presence of microbes.
